

Open eye, open heart program give prevention program against abuse for 3-18 ages' youth. The program can be implemented from kindergarten to high school and in extracurriculars programs at NGO's educational places. The program's innovation is based on the variable, complex lesson plans (scripts) for all ages, what every teacher gets.

The main goals are to actively involve the youth in their lives and teach them how not to be passive sufferers. The program encourages them that they are able to do for themselves and prevent to suffer abuse.

These prevention programs have started in kindergarten, schools and NGOs educational places at the Marist institutions in Esztergom and Karcag. The expected results are that the children learn to act independently to prevent abuse and they are able to stop abuse.
